

IMMEDIATE HELP IS NEEDED.

STARVATION CONFRONTS MANY THOUSAND SUFFERERS ON ISLAND OF STRIKEN MARTINIQUE.

Death List on St. Vincent is Growing And People are Fleeing.

GREAT CLOUDS OF SMOKE OVER ST. PIERRE

And All Who Escaped Death Have Fled, Save Soldiers and Those Sent by the Government—Heat is Intense and Work To Be Done is Arduous—Further Details of Disaster.

FORT DE FRANCE, May 13.—Outside help is quickly needed here. The town is filling up with refugees who are pouring in from the north end of the island by the hundreds. The food supplies at hand, including those sent from Guadeloupe, are totally inadequate and the terror of starvation confronts the sufferers.

The heat is intense, the unhealthy season is at hand and an epidemic is feared. The refugees are absolutely destitute. Relief committees are helping to the best of their ability but food is doled out cautiously because of the shortness of the supply.

It is estimated that 50,000 people on the island are without food and shelter and that many will die of starvation and exposure before permanent relief can reach the stricken island.

A great cloud of smoke still hangs over St. Pierre and over the country for miles around today. Every person who escaped death from the eruption has fled toward Fort de France, leaving only the soldiers and others sent to St. Pierre by the government at the scene.

The work of burning the bodies is going on as rapidly as possible. Thousands of bodies are burned under mounds of lava and cinders. These will not be reached for many days. The exposed bodies are in an advanced state of decomposition and exhale a sickening odor.

In the terrific heat and foul odor the work of cleaning up the city can go on only very slowly.

Estimates of the number of dead are simply guesses. The conservative opinion is that fully 30,000 persons perished.

LONDON, May 12.—Sixteen hundred lives are now known to have been lost on St. Vincent Island as a result of the eruption of Lasoufriere, according to a cablegram received here this morning. On account of the continued flow of lava and the intense heat, the stricken section cannot be penetrated. Refugees arriving at Castries, St. Lucia Island, say however, that the loss of life will far exceed 1,600. It is now a week since the eruption began and the tremendous explosions and rumblings had not ceased when the cablegram was sent from Castries this morning. Many refugees have arrived at Dominica in canoes.

WASHINGTON, May 13.—In the Senate this morning Mr. Collum, chairman of the committee on foreign relations, reported favorably the bill providing for an appropriation of \$500,000 for relief under the direction of the President, the society of Martinique and St. Vincent in French West Indies. In this is included the \$200,000 appropriated yesterday.

ENGLAND

Not So Quick to Come to Rescue Stricken Martinique as America Has Been.

London, May 13.—In the House of Commons today, Hon John Dillon, asked in view of the action of the President of the United States for the relief of the Martinique sufferers, would the British government take similar steps.

The Right Honorable A. J. Balfour, government leader said he had never heard of any vote of the kind being submitted to parliament. Of course, he said, the government sympathizes with the victims of the disaster and every possible assistance would be given on the spot. Dillon pressed the government to create a precedent in the matter, saying such a measure would receive a unanimous vote.

Balfour said he had considered the matter with his colleagues but had no announcement to make. Dillon gave notice that he would interpolate regarding the matter tomorrow.

MANY THOUSAND

People Killed in Guatemala by a Series of Earthquakes—Mail Advises Have Arrived.

New Orleans, La., May 13.—The mail steamer Anselmi from Puerto Barrios, Guatemala arrived last night with official reports of the Guatemala earth-

quake. The disaster was much more appalling than at first reported. Not a building was left standing in the city of Quezaltenango, the second city in the republic. The place is now under martial law. At Salcaja, 175 persons are known to be dead.

Patzum was completely destroyed by the shock. Maatenango was wrecked and left in ruins.

The seismic disturbance seemed to move from southeast to northwest, keeping in direct line with the Sierra Madre Mountains.

Amatlan was totally destroyed. San Marcos, San Pedro and Zetulia were left in a heap.

The total loss of life cannot be estimated as yet, but it is conservatively estimated to have been between 2500 and 3000 souls.

On April 23 the relief fund had reached the sum of \$131,000. President Cabreza came forward with a personal subscription of \$20,000. The American colony gave \$25,000 for immediate relief.

The Guatemala congress is now in session and is devoting its whole time to relieving the suffering in the stricken cities. A special tax of 10 cents per bottle has been levied on all imported whiskeys, and 10 per cent on all liquor licenses. Wines have been taxed 20 per cent and imported must pay a 20 per cent duty to help relieve the dying and bury the dead.

The disturbances extended into Nicaragua also. Montombo was partially destroyed; the wharves and buildings on the water front went into the sea. The city is the eastern terminus of the

railroad running across the isthmus to Corinto on the Pacific side. Mt. Montombo on Lake Managua, an active volcano, has shown signs of new life. Hot ashes are falling down its sides and the people are fleeing in fright. They fear a second St. Pierre disaster.

AMERICA IS PROMPT IN GIVING HELP

SUPPLIES WILL GO FORWARD IMMEDIATELY.

Two Hundred Thousand Dollars Voted by Congress for St. Pierre Sufferers—It May be Increased.

Washington May 13.—The succoring hand of the United States is to be extended to the sorely stricken people of the French West India islands. Seventy thousand dollars' worth of provisions, enough to feed 50,000 persons for 20 days, were bought in New York yesterday by Commissary General Weston. They are to be sent to Martinique on the converted cruiser Dixie, which will sail this afternoon or Wednesday.

Congress has appropriated \$200,000 for the purpose of supplying the urgent necessities of the people on the island. That appropriation may be increased to \$500,000 today as the President in his special message yesterday asked for that amount as telegraphed the Advocate.

Commissary General Weston did not wait for congress to act. He went in to the market and bought the provisions that would be needed to victual the Dixie and by the time the bill was passed long trains of wagons began moving toward the dock where that vessel is fitting out for her errand of mercy.

The Dixie will carry medicines, food and clothing. Three medical officers, a subsistence and one quartermaster officer of the army will go up on the Dixie for the purpose of distributing what she carries.

The subsistence officer will have \$70,000 worth of canned and dried foods to distribute, the medical officers \$5,000 worth of medicine and the quartermaster officer \$25,000 worth of clothing.

The Governor of the island suggested that the Red Cross be requested to send supplies of food. But the President considered the suggested way for sending relief as too slow, because of necessity the Red Cross would have to solicit money wherewith to supply the food.

The Government had most of the supplies needed and also a vessel ready to carry it to the place where it is needed. The only delay would be in loading the ship. Therefore the President determined to ask for money from the public treasury.

This is the first time in the history when such a request has been made. It is, however, the first time that such a catastrophe has ever overtaken the citizens or subjects of a foreign nation so near our shores. Many times the national treasury has been called upon, directly or indirectly, in behalf of some stricken American city, and that, too, for the reason that the Federal Government was always able to act more quickly than any other agency, either private or public.

Colima Active.

Mexico City, May 13.—Advices from Guadalaajara today say that the Colima volcano shows strong indications of eruption. The people in the valley at its base are moving to a safe distance from the mountain. Smoke and puffs of flame have been belching from the Colima for some days.

Family Badly Burned.

Philadelphia, May 13.—Four members of the Lavin family, 71 Rodman street, were badly burned this morning by oil from an exploding lamp. Sam Levin, aged 3, may die.

ADAM MEANS MAN.

New York, May 13.—Rev. Adolph Scarroeder, pastor of the New Church (Swedenborgian) of Orange, N. J., has taken a severely practical stand on the Adam and Eve question. He said: "Adam is simply the Hebrew word for man, and the word 'Chevvan' or Eve, is the Hebrew word or symbol for life. The story of Adam and Eve is the story of intellectual manhood, and of the creation of the life forces, which God has implanted and by which he controls the destiny of the race."

APPEAL FOR HELP

Washington, May 13.—The Senate today passed without discussion the resolution for five hundred thousand dollars relief money for the West Indies, and the President has issued an appeal to the people of the United States for the sufferers by the eruptions.

CONTRIBUTIONS

Will be Forwarded to the Stricken People on Government Ships—Cabinet Takes Action.

Washington, May 13.—The Cabinet today was devoted almost entirely to a discussion of measures for the relief of the stricken people of Martinique and St. Vincent. It was decided to appoint a commission of citizens in large cities in the United States to take charge of popular subscriptions and supplies. Arrangements will be made to forward on a government vessel all contributions obtained.

GAS MEN STRIKE

AND CHICAGO PEOPLE MUST BURN OIL

Unless the Trouble is Settled—Strikers Weren't Allowed to Form a Union.

Chicago, May 13.—Unless the gas companies make terms with 600 strikers who quit work this morning Chicago will be compelled to burn lamps and candles in places not supplied with electric lights. The supply of gas in the nine tanks of the combined companies will last 20 hours. By close economy and pressing book keepers, clerks and other office attaches into service as laborers the gas company can make enough gas to last 20 hours longer. After the expiration of this time unless new gas is made the tanks will be comparatively empty. There will not be sufficient pressure to send gas through the pipes to consumers and two-thirds of the flats, small stores and other buildings will be without means of illumination other than candles or lamps. Strikers were refused the privilege of forming a union.

Chief of Police O'Neill fears that if the strike continues and the supply of gas is shut off street lamps, a carnival of holdups and other crime will result.

INDIANS

Harrassing Government Troops at Various Points in Yaqui River Valley—Many Skirmishes.

Hermosillo, Mex., May 13.—The Yaqui Indians have gathered strength in the past few weeks and are harassing the government troops at various points in the Yaqui river valley. Many skirmishes between detachments of troops and Indians have occurred recently with casualties on both sides. A news has just reached here of a desperate fight which resulted in 17 Indians being killed and a number being wounded. The government troops, under Colonel Jose Villareal lost three killed and five wounded.

The rotation of a waterspout at the surface of the sea has been estimated by Professor Bigelow as 354 miles an hour, or nearly 6 miles a minute.

Steel Workers Quit.

Reading, Pa., May 13.—The 800 employees of the Reading plant of the American Iron and Steel company quit work this morning. Their demands for increased wages were refused. One thousand employees of the Lebanon plant struck last week.

REBELS DEFEATED.

Pekin, May 13.—The Chinese government today issued a statement announcing that the rebels in Southern Pechili have been completely defeated.

Capture of Boers.

London, May 13.—British troops report today a heavy capture of Boers, over 450 in all in the vicinity of Hart's river, Transvaal. Delareys' force is now reduced to 350.

WESTERN VOLCANOES ARE FEARED

LIABLE TO BREAK FORTH AT ANY MOMENT.

H. S. Williams, a Yale Professor, Discusses the Martinique Horror. Activity in Nebraska.

New Haven, Conn., May 13.—Henry S. Williams, professor of geology at Yale, in discussing the Martinique disaster, said:

"There are many extinct volcanoes in the western part of the United States and they are liable to break forth again at any time. There is evidence that they were active at least a few hundred years ago, for there are in existence stumps of trees that were destroyed at the time of this activity. The volcanic explosions were due to the water getting into the cavities of the earth and coming in contact with the heated rocks. These explosions were frequently in the vicinity of the sea or rivers. Martinique is surrounded by the ocean."

"How far down in the earth are these disturbances?" the professor was asked.

"At various depths. Usually they are pretty deep in the earth, and may be several miles down. The matter that flows out after an explosion is not real fire, but molten matter. It is red hot and flows down the mountain like water and gives the impression of fire. Gases are emitted and taking fire produce the flame which is often seen. The molten matter sets fire to anything in its course. The theory is that the matter in the interior of the earth is under great pressure, and this pressure keeps it from becoming molten. But as soon as it is thrown up then it is molten matter. Then the mountain blows up or explodes."

"Earthquakes are produced by a sliding away of masses of rock, and then there is a settling of the earth. At the Charleston earthquake the crack in the earth was several miles long. The earth settled only a few inches but there was loss of life by the toppling over of the buildings."

ACTIVITY IN NEBRASKA.

Omaha, Neb., May 13.—The reports of the frightful disaster at St. Pierre, Martinique, have a peculiar interest to Nebraska people, and particularly those of Cedar county, who are now reported to be in a state of terror because the volcano there, as the people believe it to be, has resumed its eruptions after 30 years of repose. Direct reports are unobtainable, but late passengers from Ponca last night arriving today report the volcanic mountain in a state of eruption.

During the last 20 hours the mountain has alarmed the residents of that section by spewing forth dense gases and smoke and by its rumbling. In 1871 the mountain waxed hot, and bad-ly scared the residents by its grumblings and hot breath. Some years ago an attempt was made to sink shafts near the mountain for coal veins, but the attempt was given up. At a depth of a few feet the temperature was too hot for the boring tools. Geologists state that the smoke and steam is caused by a stream of water seeping into the limestone formation of the mountain, but the people are fearful of an eruption.

Travelers report that several families are getting their belongings together, ready for a hasty exodus should the thing become more violent.

RAIN OF NAPHTHA KILLS OR MAIMS MANY NEAR PITTSBURG, PA.

Collision of Two Tank Cars Starts a Fire That Causes a Most Frightful Calamity.

THIRTEEN KILLED, THREE HUNDRED HURT

Explosions Occurred More Than a Mile From the Scene.

Burning Oil Found Its Way Into the Sewers and Volcano-Like Eruptions Followed—Building Was Blown Up at Esplan—John Swan Not Killed.

PITTSBURG, May 13.—The collision of two tank cars at Sheraden Station, near Pittsburgh, last evening, caused an explosion and fire that attracted hundreds of spectators to the hillsides overlooking Sheraden valley. The blaze communicated to an oil train, and the series of explosions that followed shot huge fragments of metal into the crowds and set fire to the adjacent forest.

In the superheated air hundreds fell prostrate, and the known dead and dying number 30 or more. Many more were dangerously injured, and from 50 to 75 were horribly burned. Burning oil found its way into the sewers and volcano-like eruptions followed at Esplan and other places, a mile or so from the scene, where many people were injured. At Esplan a building was blown up in which a crowd of men were playing at games of chance.

Physicians who are attending the injured are authority for the statement that 75 per cent of them will die. In view of the fact that the number of injured is estimated at 200, this may swell the list of dead to 160.

Today's complete details of the frightful explosion in the Pan Handle yards at Cork's Run shows that the bursting of naphtha tanks cost 13 lives and injured 300 persons, possibly more. The hospitals and morgue are full of the dead and injured. Reports from the injured in the hospitals are for the most part favorable. The total number of victims will probably never be known as many with slight hurts went directly home.

Pittsburg, Pa., May 13.—At least 10 people are dead, a score or more are dying and four score are injured as a result of a series of explosions of burning naphtha and gasoline, contained in tank cars in the Pan Handle yards.

When the explosion occurred 500 cars, loaded, were congested at Sheraden. By heroic work the railroaders averted a general conflagration but as it was much property was destroyed. A train containing 10 tank cars filled with gasoline and naphtha was being made up when two naphtha cars crashed together. The explosive began to escape and the trainmen started to pull the cars out of the way.

Two hundred yards from Sheraden Station the cars, dripping with naphtha, passed a switch light which had just been placed. Instantly the cars exploded. Clyde Fair, a brakeman, was blown off the end of one. The cars continued to burn, the fire not having reached the main body of the naphtha in them.

In the meantime the rest of the train, containing other naphtha and gasoline cars, was being made up. The yards at this point are in a valley, with towering forest clad hills on either side. The hills began to fill with people. A trolley road on one side, within 100 yards of the burning cars, was choked with people. For several hours the curious gathered to watch the opening scene of an occurrence the climax of which was to bring death to many.

Shortly before 7 o'clock a second explosion occurred, and this communicated with two other of the gasoline loaded cars. There was a deafening crash and a shower of blazing oil covered metal was hurled through the air flying upon both hillsides adjoining the yards.

The final explosion caused the great loss of life. Pieces of the tank cars flew among the crowds on the hillsides and among a crowd of railroaders, who were at work about the burning cars. Many were instantly killed. One man's head was torn off, being

A DISTRESSING ACCIDENT.

MRS. M. GRACE FLEEK DEAD

One of Newark's Most Prominent Women, While Attending a Dinner Party, Fell Down Flight of Stairs at F. S. Wright's Home--Universal Sorrow Expressed.

It is indeed, seldom that an entire community is so deeply and genuinely overwhelmed with sorrowful surprise, as was the case when the news rapidly spread over town Monday evening that Mrs. Martha Grace Fleek, widow of the late John S. Fleek, had died suddenly at her home, 67 North Fifth street, at about 7:30 o'clock. Concomitant with the news of Mrs. Fleek's death came that she had been the victim of an accident which resulted fatally.

In the afternoon Mrs. Fleek attended a reception given by Mrs. Frederick S. Wright at her home on Eddy street, and during the afternoon was in her usual happy frame of mind. The reception was drawing to a close, between 5:30 and 6:00 o'clock, and the guests were preparing to take their departure. Mrs. Fleek, with Mrs. Anna Black, had gone to the bathroom on the second floor, and it was here that the accident happened. Opening from the bath room is a door which leads down a flight of winding stairs to the first floor. Across this door hangs a portiere, and the opening is almost totally concealed. It is thought that Mrs. Fleek was standing near this opening and stepped back into it. At any rate, she fell the entire length of the stairway to the floor below, breaking open the door at the bottom. Mrs. Black ran down the front stairs and announced to the frightened guests that the accident had happened, and when the ladies got to Mrs. Fleek she was in a sitting position. She was somewhat dazed, but insisted she was not seriously hurt, although she complained somewhat of nausea, and afterwards a pain in the side.

It was suggested that the injured woman be taken home, and Mrs. Martha Owens took her down in a carriage. Mrs. Fleek got out of the buggy without assistance, walked into the house, and lay down on a sofa. Her daughter, Mrs. Frank P. Kennedy, against her protestations that she was not badly hurt, dispatched a message to Dr. J. A. Mitchell, who was soon at the home. He advised that Mrs. Fleek go up stairs, which she did without assistance. She soon after complained of terrible pains in the side, and in about 10 minutes was dead. It being the physician's opinion that a blood vessel had broken, resulting in a suffusion of blood through vital tissues. The terrible shock of her death as experienced by Mrs. Fleek's friends can scarcely be imagined. The news spread with incredible rapidity and on every side were expressions of sorrow and kindly sympathy.

Martha Grace Lang was born in Ashland, Ohio, February 9, 1838, and was the daughter of John and Sarah Greeley Lang. Her early life was spent in her native town, and she received her education at the Granville Female college, graduating in the class of 1856.

In 1858 she removed to Newark and made her home with Mr. and Mrs. Spencer Wright.

In 1860, October 8, she was married to John Seward Fleek, who died June 15, 1883. To them were born five children, George W. and John Lang, being dead. The surviving children are Henry S. Fleek, Mrs. W. C. Miller and Mrs. Frank Kennedy.

One sister, Mrs. Spencer Wright of Lancaster, also survives.

The deceased was a member of the Second Presbyterian church, having joined that faith in early life. She was a member of the Board of Lady Managers of the Newark Hospital and of Hettuck Chapter, Daughters of the American Revolution.

Mrs. Fleek was a woman who will be indeed sadly missed in the several spheres of her former activity, but her life should be and undoubtedly will be a sweet memory to those who knew her so well, and an example and inspiration to the young, to develop the qualities of noble womanhood which were constantly evident in her daily life.

Mrs. Fleek was of a kindly disposition and generous nature. Her ear was ever inclined to hear the cry of want or distress, and in her way, she went about to relieve the troubled or afflicted. Her aims were never done to be seen of men, but in this hour there are many who drop a tear

of kindly sympathy and loving remembrance of some act of unostentatious beneficence.

In her church Mrs. Fleek was faithful to its teachings, liberal toward its support and in direct sympathy with every department of its Christian work.

Every deserving work of charity for the education or betterment of humanity had her unqualified endorsement and loyal support.

In her home she was a kind and loving mother who raised a family of children who are monuments to her maternal devotion and care.

In home, church and society her refinement, culture and human kindness will ever remain a sweet smelling favor.

The funeral services will be held on Thursday morning at 10 o'clock, from the late home on Fifth street, and will be private. It is probable that Rev. Frank Granstaff of Marion, will officiate.

CAR WORKS

JEWETT FACTORY KEEPS A BIG FORCE BUSY.

Orders Ahead that Will Keep Company Busy For Months--Big Shipments Being Made.

One of the most active industries of Newark is the Jewett Car Works.

Over 300 men are now employed at this manufactory, working full time, and the orders for electric cars are coming in thick and fast from all over the country. Every few days big shipments of cars are made to various parts of the country. The demand for cars is rapidly increasing owing to the numerous electric roads that are being built, and the indications are that before long the force at these works will be doubled. This morning the company made another shipment of four handsome cars via the B. & O. railroad to Indianapolis.

It is authoritatively announced that the company now has orders that will keep the present big force busy up to October and new orders are being received constantly. The force is now working ten hours and a large number of men work three hours overtime nearly every day. Within a few days a shipment of 25 fine cars built for the Manhattan elevated railroad will be made.

EATON--The annual conference of the Old Order of German Baptists, a national affair, will convene near Eldorado on May 18, and 15,000 people are expected to gather for the great camp meeting. Ten beehives will be slaughtered to feed the crowd.

In Chicago.

"Fellow citizens," thundered the young Populist orator, "we are paying too much for our beef."

Whereupon all the farmers got up and walked out.

"And it's the fault of the infamous beef trust!" he added hurriedly.

Upon which all the men employed in and about the packing houses rose from their seats and left the hall.

A few meat consumers, however, who had come to hear from motives of idle curiosity, remained to the end. Chicago Tribune.

WHEN MEAT IS HIGH

The Way Many Workingmen are Getting Even With the Meat Trust.

Since the meat trust has taken hold of the prices of meat many workingmen have devised a plan to abandon meat. The man who works at hard labor must have nutritious food and many have adopted Malt-Nut, the new cereal food, in place of meat. It has four times the nutrition of beef and is equal to beef at four cents a pound.

This new food has a rich, dairy flavor, and the workingman can accomplish a harder day's work on a saucer of Malt-Nut than on a half pound of beef. It pleases the palate and furnishes nature's requisite amount of nourishment. Sold by leading grocers. One package will convince the most skeptical.

RAILROAD NEWS

B. & O. Vacancy.

The vacancy on the Baltimore & Ohio caused by the resignation of J. B. Owen as engineer of maintenance of way on the Pittsburg division has been filled by the appointment of W. B. Poland. He comes to Pittsburg from the B. & O. S. W. at Washington, Ind.--Pittsburg Post.

Engineers' Brotherhood.

Norfolk, Va., May 13.--A special train arrived here from Columbus, O., over the Norfolk and Western this morning with Grand Chief P. M. Arthur and 600 western delegates to the biennial convention of the National Brotherhood of Locomotive Engineers, which begins here tomorrow. Cincinnati will make a hard fight for the next convention.

Barr May Go To St. Paul.

It is reported that J. N. Barr has been offered the position of general Superintendent of the Chicago, Milwaukee and St. Paul, with headquarters in Chicago, but it was not confirmed by the St. Paul officials. This news is interesting on account of his former connection with the B. & O., having served under the old management in the capacity of mechanical superintendent. Upon the change in the management of the Baltimore & Ohio he left to go with the Erie railroad as mechanical superintendent under President F. D. Underwood, former general manager of the B. & O.

Unique B. & O. Engine Record.

Sitting on the desk of Wm. T. Lechler, chief clerk to the general Superintendent of the B. & O. is a small library file case containing the record of all the engines on the five divisions coming under the supervision of the local office. The card system of keeping track of engines is original and unique. There are about 1000 locomotives on the 1600 miles of road included in the Pittsburg district. Each of these engines is represented in the small case by a card which is numbered the same as the engine and upon which may be entered any information about it. There are different colored cards for each of the divisions, Pittsburg, Connellsville, New Castle, Cleveland and Newark, and when an engine is transferred or moved about the card is likewise moved or a notation made upon it. The engines are also classified as freight, passenger, switch and helping by the system, and those in the shops are shown. Today's Pittsburg Post.

Railway Notes.

Road Foreman of Engines James Dennison is on the O. & L. K. division of the B. & O. today.

Everything is in good shape on the B. & O. today.

The new time card of the Baltimore and Ohio will go into effect next Sunday.

Superintendent of Telegraph C. E. McKim and Signal Engineer C. Gratton of the Pan Handle, are on an inspection trip of the signal system to last a week.

The earnings of the T. & O. C. railway division of the Ohio Central lines for the first week of the present month amounted to \$51,355 as compared with \$43,795 for the corresponding week of last year, showing a gain of \$7,560.

Lecture, Christian Science, in this city, Thursday evening, May 15, by Edward A. Kimball, of Chicago, member of the Board of Lecturership of the First Church of Christ, Scientist, in Boston, Mass., at the Auditorium.

AKRON--Frank Fuller pleaded guilty to absconding with \$5,000 while an Adams Express agent at Hudson, and received a sentence of four years in the penitentiary. Chas. Chase, for receiving part of the stolen money, was sentenced to Mansfield Reformatory.

ELI WILKINS

Died Near Purity Tuesday Morning at the Age of Sixty--Was a Civil War Veteran.

Eli Wilkins, aged about 60 years, died at his home near Purity Tuesday morning at 5 o'clock.

The funeral will be held Wednesday afternoon at 2 o'clock.

The deceased was a member of an Ohio regiment in the civil war, entering the service as a private and being rapidly advanced until he became a major.

He for some years resided in Iowa, and was a member of that State legislature. He was never married.

MEYER BROS. & CO.

It was a gracious action on the part of the United States Senate to initiate a movement for the relief of the stricken inhabitants of Martinique by a vote of \$100,000. The generous impulse has been promptly appreciated by the French government through its Ambassador at Washington. Yet how little can man do in the face of a manifestation of the unbound elemental forces! The greater part of the victims of the cataclysm at St. Pierre are past human aid and the raging Mt. Pelée with its scorching breath guards its prey and prevents all attempts to bring succor to those, if there be any, who may have outlived its first furious outbreak. The punishment of man and his insignificance in the order of the universe are brought home to one by this convulsion of nature.

The title of "the friars' lands" in the Philippines is largely vested in the Church. On the other hand there are Government lands in the islands upon which the religious orders have been permitted to erect buildings for schools and charitable purposes. As there must be under American jurisdiction a separation of State and Church ownership and management, Governor Taft's mission to Rome is to facilitate and lay the foundation for Congressional action by consultation with the Church authorities as to terms of purchase. His mission is entirely a matter of preliminary arrangement and not in any sense diplomatic. It will be for Congress to determine whether the lands, when purchased, shall be reserved for native purchasers and settlers or flung open to entry by promoters and speculators.

Notwithstanding the decision of the Supreme Court that the Philippines are not foreign territory, under our outrageous navigation laws owners of American vessels arriving from the archipelago are obliged to pay entry and survey fees. Is it any wonder that the commerce of other nations with the Philippines is seven times greater than that of the United States and that our gains have been but paltry? We deny them the boon of free interstate trade, which lies at the foundation of the prosperity of the Republic, and do not even let them participate in the advantage of our protected coastwise trade.

CARD OF THANKS.
We desire to express our heartfelt thanks to the friends and neighbors who so kindly assisted us after the death of our son and brother, for the beautiful floral offerings presented. Mr. and Mrs. W. H. Pittsford and family.

Holds Up a Congressman.
"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendor and health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by Hall's drug store.

NEW OHIO LAWS.

REVIEW OF THE WORK OF THE SEVENTY-FIFTH GENERAL ASSEMBLY.

Innovation in Taxation—Franklin County a Separate Congressional District—Some Radical Changes in the Existing Statutes—Constitutional Amendments—Bills Passed—Bills Defeated.

Columbus, O., May 12.—The Seventy-fifth general assembly, one of the most remarkable sessions of the Ohio legislature, is closed and remains now but a memory—a pleasant one to some, bitter to many. The session has been a long draw-out one, but the business it has accomplished, while not varied, is perhaps the most important of any assembly in many years.

Besides a general revision of all the statutes of the state, the seventy-fifth general assembly has elected a United States senator, changed the entire taxation scheme of the state, placed a local option law upon the statute books, and submitted two propositions to the people of Ohio to amend their constitution.

The plan of taxation which was advocated in the last legislative campaign was made a reality. While the new scheme makes a radical change in many ways, it remains yet to be seen whether or not the burden of taxation is really shifted from the shoulders of the farmer and small merchant to the shoulders of the large corporations and the county and home taxes upon the county itself.

To this end three bills were introduced and enacted into laws: The Willis bill, the Cole bill and the Johnston bill. The Willis bill provides that all corporations authorized under the laws of Ohio must file annually with the secretary of state a sworn statement of all their property, debts and credits, and for this they are to pay to the state one-tenth of one per cent. upon their paid-up capital stock. It is not known just what the revenue from this source will be to the state, but it is estimated that it will be a way up in the millions. This much will be entirely new.

The Cole bill extends the operation of the excise tax law to a larger field and includes telegraph and telephone companies, pipe line companies and all "quasi-public" corporations. The Johnston bill takes away from the counties the taxes paid upon the premiums of insurance companies and turns it into the treasury of the state. The receipts from this source to the state treasury is expected to be about \$600,000.

The result of these laws upon the state tax levy is a reduction from 2.53 mills on the dollar to 1.30 mills. Of course the Johnston bill will increase the county tax at different rates in different counties but it is expected that the ordinary small tax payer will have to pay less to his county treasurer next year than he has in many years. There are those of course, not in sympathy with the administration who see much fault with the plan.

Just before adjournment, Monday, the senate, on the recommendation of the conference committee, agreed to the house amendment to the Patterson re-districting bill, making Franklin county a district unto itself, and adding Fairfield county, which has been a part of the Twelfth, to General Grosvenor's, the Eleventh.

The session adopted two resolutions for the purpose of submitting propositions to the people to amend the state constitution. The first is to give the governor the power of veto which is done in most of the different states, and the second is to give the legislature greater authority in the matter of taxation. It is proposed to have a uniform rate of taxation on the same class of subjects.

The passage of the Longworth bill provides a manner for bringing these matters to the attention of the people. It provides that in state convention, the political parties will adopt a principle of being for or against the proposed amendments and that this principle will then become a part of the state ticket. Then the voter who votes a "straight ticket" will vote for or against the amendment as his party has agreed.

The fate of the canals hung for some time in the balances as at the opening of the session there was a prevailing demand to dispose of this state property, sell the land to the railroads, drain the reservoirs, and use the land for agricultural purposes. The question was agitated from center to circumference of the state however, and the result was a declaration that the canals should be dedicated as public parks.

For years there has been agitation upon the local option question and one bill after another has been defeated until this year when the local option measure, this year known as the local option bill, was passed. It was amended however, so that both the saloon and anti-saloon elements are satisfied with its provisions. Under this law forty per cent. of the electors of a municipality may petition for an election on the subject of the saloon and if a majority demand that there shall be no saloon within the municipality, they must all close within thirty days. The same method can be followed to re-establish the saloon. There is no provision made for the wholesale distribution of liquor, however, in "dry" towns, and the law does

not apply to breweries in a "dry" town, where their product is sold outside the city limits.

Under the following departments all the important general laws passed by the seventy-fifth general assembly are given:

The Judiciary.
To provide for a service of cummums upon infants under fourteen years of age through parents or guardians.

To extend the lien laws of the state to apply to all kinds of oil property. Making new regulations for the taking of exceptions to decisions of mayors, justices of the peace or police courts.

Requiring itemized cost bills in all criminal cases before they can be presented to the auditor.

Requiring all the parties to a case in any court to be indexed, giving street and number if residents of a city.

Creating the office of an additional stenographer for the supreme court.

Giving the Ninth judicial district an official interpreter.

Making four additional common pleas judges in Cuyahoga county.

Giving villages regular police courts and providing for the appointment of police judges.

To codify all the health laws of the state.

Giving prosecuting attorneys authority to employ expert witnesses to testify before grand juries.

To allow common pleas judges not to exceed \$150 for expenses when trying cases outside their home counties.

Increasing salaries of circuit judges of Fifth district, \$100 per year each.

Boards and Commissions.
Introduced by Senator Hosca, to provide for the appointment of a commission to recommend a set of laws on negotiable instruments which will be uniform with the laws of other states. The subjects included will be promissory notes, forgery, perjury, marriage and divorce, bills of lading, checks, drafts, etc.

To officially recognize osteopathy as a means of curing disease and to establish a state board of examiners for osteopaths.

Authorizing the governor to appoint a commission to investigate the feasibility of erecting a state sanitarium for the cure or prevention of consumption.

To establish a board of trustees for fire and police pension funds in every city in the state.

To extend to life of the present canal commission two years.

A commission to investigate the practicability of retaining the southern division of the Ohio canal.

Creating a board of examiners for applicants who wish to practice dentistry in Ohio.

Requiring that the boards of health shall have supervision and control over the manufacture, cutting and sale of ice.

Creating a state board of examiners for embalmers.

Giving the board of public works and the canal commission full control of the lakes and reservoirs of the state as public parks and resorts.

Giving commissioner of labor statistics full power to enter workshops and factories for labor statistics.

Creating a state board of examiners for horse shoers. The bill exempts blacksmiths in the country and small towns.

Corporations.
To provide that a majority of the stock holders of a corporation may petition for the abandonment of the concern where the objects of its incorporation can not be accomplished. To provide for the abandonment at any time of a corporation not for profit.

To permit plaintiffs to bring action against a foreign corporation in any county of this state where the corporation has property or debts owing to it.

To strictly define the duties and privileges of title guarantee and trust companies and to permit them to act as collectors for interest, private claims, etc.

Permitting corporations to borrow money in any amount not exceeding the amount of their authorized capital stock.

Allowing insurance companies to loan money upon improved real estate to an amount equal to one-half the value of the real estate and the improvements.

Preventing the incorporation of a company with a name that might be misleading as to the kind of business to be transacted.

Allowing one corporation to own stock in another corporation.

Permitting title, guarantee and trust companies to act as executors, administrators, etc.

Permitting old line insurance companies to insure against sickness and accident.

Speaker McKinnon's bill to make legal, all bond issues authorized by special or local legislation. It has been variously termed "Blanket bond bill" and "confidence bill."

Prisons and Crimes.
To provide that persons convicted of felony between the ages of 16 and 20 years are to be sent to the Mans-

field reformatory, if they are not known to have been previously convicted of crime. The sentence in each case is to be indefinite. The state is to pay for the transportation of such prisoners to and from the prison.

Making the imprisonment 20 years in the penitentiary for enticing a girl away from her home or her employment to a place of prostitution.

Making the punishment for safe blowing or drilling from 20 years to life imprisonment in the penitentiary.

Permitting the parole of prisoners from workhouses and requiring the written order of the directors for their return.

Extending the operation of the abduction law at the Girls' Industrial home to the Ohio Soldiers' and Sailors' Orphans' home.

Making it a penitentiary offense, just as larceny, to tap wires to get either messages or electricity.

Revising the criminal assault laws, increasing the punishment in some cases to life imprisonment and decreasing it in others.

To punish by death, a successful attempt upon the life of the president, vice president or any member of the cabinet, or the governor, lieutenant governor, or any officer in line of succession. An unsuccessful attempt is to be punished with life imprisonment in the penitentiary. Law enacted as a blow at anarchy.

Making it a misdemeanor to sell poisons to persons under 16 years, except upon written order from adult person.

Providing a fine of \$200 for offering or accepting a bribe to influence the judgment of referees, appraisers, umpires and other officers having settlements to adjust.

To make the offense of appropriating funds of fraternal organizations, the same as other embezzlements.

To punish persons who defraud livestockmen.

To increase the salaries of the officers and guards at the Ohio penitentiary.

The Public Roads.
Requiring bicycles, automobiles and persons on horseback to give two-thirds of the road when meeting persons driving horses hitched to carriages or other vehicle.

Restricting signers to a remonstrance against the construction of a free turnpike to resident free hold taxpayers and excluding minor heirs to an undivided estate.

Requiring road supervisors and pike or street commissioners to cut weeds along the streets and highways in June, August and September of each year.

To permit the dirt from a new road to be thrown upon the adjacent property.

County Affairs.
Authorizing county treasurers to bring suit in their own names to collect taxes on real estate in the same manner as mortgages are foreclosed in common pleas court.

Requiring county commissioners to care for the graves of Confederates as well as Union soldiers and sailors in cemeteries used exclusively as such burial grounds.

Requiring the referendum before county commissioners can expend more than \$10,000 for the erection or improvement of county buildings.

Authorizing counties to build memorial buildings to soldiers and prisoners. Referendum required.

To provide for a general issuance of bonds for counties, townships and municipalities, so as to avoid special legislation. For sewers, street improvements and other public works, commissioners, trustees or councils may issue bonds not to exceed one per cent of the total amount on the tax duplicate, but more than that must be approved by a referendum vote.

To require that county commissioners must exhibit plans for bridge work before contract can be closed.

Extending the term of office of county clerks from Aug. 1st to Jan. 1st.

The resolution to amend the constitution so that each county shall have at least one representative in the general assembly.

To establish a uniform system of public accounting for all state, county and municipal officers.

The Public Schools.
Grading all the public schools of the state and establishing a uniform curriculum for high schools. High schools are divided into four classes, the classes depending upon the number of years to complete the course, the number of courses and the branches taught.

Establishing state normal schools at Ohio and Miami universities and the appointment of a commission to determine whether or not it would be wise to establish other state normal schools at different sections of the state. The law appropriates \$35,000 to Miami, \$25,000 to Ohio and \$18,000 to Wilberforce for normal school purposes.

To provide for Boxwell school examinations to be held on the third Saturday in April and second Saturday in May of each year in each county of the state and to provide for uniform commencement exercises.

Changing Arbor day to April and requiring teachers to give their pupils easy lessons in ornithology and forestry.

Election Laws.
The repeal of the Garfield corrupt practices act so that it is no longer necessary for candidates for office to file reports of campaign expenditures and to make a sworn statement that no promises were made for the purpose of securing votes.

A law providing that patients at the Gallipoli hospital for epileptics must

vote in the counties from which they were sent.

To permit the purchase of young machines in city precincts by petition.

Agriculture.
Amending the law governing the state board of agriculture so that members can not vote for themselves. Presidents of county farmers' institutes in counties where there is no regular county society, will be seated.

Reorganizing the Ohio agricultural experiment station so that the governor will not be a member of the board of trustees.

Giving incorporated companies organized for the purpose, authority to hold fairs where the regular agricultural society refuses or neglects to do so.

To authorize county agricultural societies to sell real estate to secure funds for the improvement of fair grounds.

To prevent the spread of the San Jose scale.

State Institutions.
To provide for the inspection of the finances of all the state institutions, charitable and eleemosynary by the state auditor or a deputy at least twice each year and at unexpected days.

Changing the name of the Institution for the Education of the Blind to the Ohio State School for the Blind.

Increasing the salaries of the assistant matrons and the physicians at the Deaf and Dumb institution to \$400 per year.

Military Affairs.
Reorganizing the Ohio National Guard so as to make it conform to the organization of the regular army.

Extending the time of the encampment of the National Guard to two weeks.

Increasing the allowances to officers of the National Guard for board service and maintaining headquarters.

The appointment of a commission to mark the positions of Ohio regiments and batteries at the battle of Vicksburg.

To punish by heavy fine, any use of the flag for any kind of advertising or other desecration.

Adopting an official flag for the state.

The Railroads.
To permit physicians or sheriff with prisoners to ride on freight trains by payment of the regular fare.

Amending the law so that a summons against a railway company may be served upon the nearest ticket or station agent.

Full freight crew and full passenger crew laws for all railroads in the state.

Permitting railroads to extend their lines in a general direction through other states by consolidation with non-competing lines.

To abolish grade crossings in municipalities, cities and railroads each to bear half the expense of the improvement.

Creating the office of inspector of air brakes and couplings. Salary, \$1,500.

Miscellaneous.
Providing that bottlers of beer, ginger ale, mineral waters, etc., may register the design of their bottles and claim them wherever found. Possession of these bottles, where unauthorised is to be taken as prima facie evidence that they were stolen.

Establishing a fine of \$200 of cruelty treating, abandoning or neglecting or refusing to furnish food, clothing or medical attention for children. This duty is imposed upon parent or guardian.

To prevent the sale of a stock of goods in bulk unless all the creditors of the house are first notified. This law was passed for the protection of wholesale dealers.

Forbidding the use or sale of cocaine except upon the prescription of a regular licensed physician.

Making employers liable in damages to employees for injury sustained because of defective machinery.

To make it unlawful to trap shoot any live bird or fowl of any kind.

A state copyright law for plays, dramas, etc.

Placing the office of insurance commissioner on salary.

Bills Defeated.
All told, there were about 1,500 bills introduced during the session. A great many of these were of course of local application, but it was not expected that all of them would become laws. Some of them were good ones and in the interest of the people, and some of them aroused considerable interest throughout the state. Of the more important defeated measures, the following may be mentioned:

The municipal code bill, establishing a uniform system of government for all the municipalities of the state.

The Middeswart bill, to establish a state board of examiners for barbers.

To require that women shall be paid the same as men for similar services, professional or otherwise.

The Painter canal bills to abandon canal property and to lease the banks of the canal forever to the railroads.

The Gear cigar tax bill and the Gear bill to give a county exclusive control over the school levy.

The school book bill, to provide for the appointment of a commission to superintend the publication of all text books to be used in the public schools at the expense of the state and distribute them among the pupils.

The two cent car fare for steam roads and the one and one-half cent fare bill for electric lines.

The Hamilton ripper bill and the Akron-Yongstown ripper.

The state depository bank bill. The Roil divorce bill to provide that divorced persons could not remarry for one year after the granting of the decree.

THEY ARE HERE IN NEWARK, O.

The Most Eminent Specialists in America are in Our City and Will Remain Until.

Saturday Night, May 17

Six Days Only and Will Receive Patients While Here at the Parlors of the Warden Hotel.

Dr. Snell and Staff

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their advertising trip, and to introduce their new system of curing disease, they will give consultation, examination, advice and all medicine necessary to complete a cure. FREE! All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored the hearing to hundreds after they had been pronounced incurable. Cataracts in all its varied forms cured so it will never return, by breaking up the cold catching tendency.

If you have weak lungs or consumption and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a life time to consult without charge. Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or can not walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a specimen of your urine for a chemical and microscopic analysis.

If you are improving under your family physician don't come and take up our valuable time. Suffer and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, all blood, skin and scalp diseases cured by an entirely new method. Pills and Vaseline cured in from 5 to 20 days without the knife.

Remember, not one penny will be charged for the medicine required to complete a cure, to all those taking treatment during this trip.

Leave 9 a. m. to 7 p. m.

Hypnotism!

TUESDAY EVENING, MAY 13.

Admission to all parts, 25 cents.

Tickets on sale Saturday, May 10th, at 8 p. m. 5-10-3t

Dr. R. A. Barrick
DENTIST.

For good and reliable dental work, and low prices, I defy competition. Good work is the cheapest. My work is my reference. Teeth extracted without pain by Vitalized Air. If you have work to be done I will save you money if you give me a chance. I will not be undervalued by any one. Call and be convinced that these are facts. Extracting 25c. Office—First stairway south of Joty House.

IN THE FIELD OF SPORT

The base ball games on Monday resulted as follows:

NATIONAL LEAGUE.

At Cincinnati—R. H. E.
Cincinnati 5 9 6
Philadelphia 8 14 2
Batteries: Hahn and Bergen, Duglesley and Doolin. Attendance, 700.

At St. Louis—R. H. E.
St. Louis 2 9 1
New York 1 2 1

Batteries: Murphy and Ryan, Kennedy and Bowerman. Attendance 600.

At Pittsburgh—R. H. E.

Pittsburgh 4 10 1

Boston 2 6 0

Batteries: Tannhill, Leever, Smith, O'Connor, Willis and Kittredge. Attendance, 3,200.

At Chicago—R. H. E.

Chicago 0 3 2

Brooklyn 2 9 1

Batteries: St. Vrain and Kling, Kitson and Abearn. Attendance, 1,200.

AMERICAN LEAGUE.

At Philadelphia—R. H. E.

Boston 8 13 1

Philadelphia 2 5 1

Batteries: Winters and Warner, Plank and Powers. Attendance 1,800.

At Cleveland—R. H. E.

Cleveland 2 11 4

St. Louis 7 11 2

Batteries: Joss and Beamis, Donahue and Sugden. Attendance 3,100.

At Detroit—R. H. E.

Detroit 5 11 1

Chicago 4 10 1

Batteries: Miller and McGuire, Griffith and Sullivan. Attendance

At Baltimore—R. H. E.

Baltimore 9 15 2

Washington 4 12 3

Batteries: McGinnity and Robinson; Patten and Drill. Attendance 2,336.

AMERICAN PLAYS BEST BALL.

The attendance figures at games in the two rival leagues continue to show that the American is getting the patronage. Outside of Pittsburgh where the public see championship ball every time the team plays, the games do not draw a corporal's guard. On Monday the combined attendance at St. Louis and Cincinnati was 1300 or less than half that at Cleveland, which city was considered a base ball graveyard for years. The public go to see good base ball and pay their money to have the genuine article served to them, nor will they be satisfied with the spurious. Local pride is a great factor, and when the home team is winning the attendance will naturally increase, and yet this is not all that makes the game interesting to the spectator. He likes to see clean sharp fielding, good batting and baserunning, and goes home disgusted after a game full of errors and brainless playing, even though the home team wins.

The American League furnishes the best base ball, and as the paying public in cities where the leagues compete, do not care a rap for the bickerings and litigation of the magnates they will continue to pay where they get the most for their money.

TO MAKE A RECORD.

Pittsburg added another to their winning tab Monday by defeating Boston 4 to 2. There is no doubt but that Fred Clarke is out to win as many games as possible, and get the best championship per centage secured by recent pennant winners.

This proves beyond a doubt the absolute honesty of base ball. By dishonest or even indifferent playing the Pirates could rapidly allow the gap between them and the other teams to close up, make the race more of a contest, and increase the attendance. But this has not even been thought of and Pittsburg continues in her easy stride pennantward, and will win "pulled up" without turning a hair.

GANS KNOCKS OUT ERNE.

Joe Gans of Baltimore, before the International Athletic club at Ft. Erie, Ontario knocked out Frank Erne, champion light weight, after 1 minute and 40 seconds of fighting in the first round. The blow that did the business was a terrific right hand upper cut to the jaw. Erne was completely knocked out, and the count was completed before he attempted to regain his feet.

Gans weighed 133½, Erne 132½, and the latter was favorite at \$100 to \$80. The Baltimorean claims the championship of the light-weight class. Barney Furey of Cincinnati, has challenged the winner.

AFTER LAJOIE.

Philadelphia, May 13.—Jas. McNamara, of Detroit, had a long talk with Lajoie, the Athletic Club's second baseman Monday, and came pretty near convincing "Larry" that he would run no danger of laying himself liable to contempt of Court by playing ball with the Detroit team anywhere outside of Pennsylvania. Lajoie is not quite satisfied and will have a talk with Richard C. Dale and other lawyers before making any move in the matter. The Washington club is also hot after Lajoie. Manager Loftus says he is willing to pay the price. The New York League team is also very anxious to secure the great baseman.

AT GRANVILLE TOMORROW.

Newark people who like to see a good game of ball should not miss the game between Denison and Western Reserve University, to be played on the Athletic Grounds of Denison University at Granville tomorrow afternoon. The Western Reserve team is composed of No. 1 players and are coming to Granville confident of victory. Denison, however, is of the opinion that victory will perch upon its banner, and the boys are going into the game with the intention of winning it if possible. This will be one of the best games of the season, and those who attend it will be amply repaid.

Fitz and Jeffries.

San Francisco, May 13.—Fitzsimmons has issued an ultimatum giving Jeffries two weeks in which to decide whether or not to fight. He invites clubs to make sealed bids to be opened May 26. Jeffries has wired that he will arrive here on Sunday.

Sporting Notes.

Dick Padden was the middle man in three fast double plays at Cleveland Monday.

Joss gave nine bases on balls at Cleveland Monday, and of course St. Louis won.

Selbach made a home run for Baltimore in Monday's game with Washington.

Jimmy Barrett secured a home run off Clark Griffith at Detroit on Monday.

Wheeling defeated Zanesville 4 to 1 at Wheeling Monday. Jimmy Outcalt was the receiving end of Zanesville's battery.

Columbus could not hit Gus Weyhing Monday at Kansas City, and was defeated 10 to 1. Bailey was hit for 19 safe ones.

Kitson of Brooklyn, duplicated Newton's Sunday performance at Chicago, Monday, holding the Seelies down to three hits and no runs. Brooklyn seems to be coming.

If Columbus finishes one, two, three, the players will divide a handsome cash bonus, offered by the club directors. Needless to say the Senators will strain a point to capture this pin money.

Cincinnati repeated their performance of the Comedy of Errors Monday, and of course lost to Philadelphia. But this has ceased to even cause a ripple. It's too bad that Hahn is tied up with such a gang of misfits. He is a great pitcher, and his efforts deserve better support.

The nest of the tree wasp or hornet is made of a true paper, wood being ground to pulp by the jaws of the wasp and treated with an adhesive matter secreted in the creature's mouth.

Ordinance to regulate and improve the condition of barber shops of Philadelphia will be introduced into Councils. It will provide for the licensing and registration of all shops, and for the appointment of inspectors to investigate their sanitary condition.

A peppery temper is not a thing to be sneezed at.

Many of Our Boys and Girls are Suffering This Month from the After Effects of Winter Grip. Wise Parents Provide

PAINE'S Celery Compound

For Their Loved Ones.

The Wondrous Medicine Quickly Expels all Germ Poisons from the Blood and Fortifies the Weak and Run Down System.

A busy city physician, enjoying a large annual income, remarked the other day that a host of young people—boys and girls—were suffering this month from the after effects of winter gripple.

Dear parents, have any of your children suffered from an attack of the cruel monster, gripple, during the past winter months? Are your boys and girls irritable, feverish, pale, or weak? Have they cold and clammy limbs? Is the blood watery, impure, or sluggish? Is the appetite poor and digestion weak? Has the rose tint of health faded from the cheeks? If any of these conditions are noted, be assured the dregs of deadly gripple are implanted in the system.

If your children are not blithesome, happy, boisterous, and strong in May, their condition calls for prompt action on your part. Their future—health and physical happiness or sufferings and early death—is in your hands, dear parents, and you alone are responsible to heaven and the community of which you form a part.

When winter gripple has implanted seeds of virulent diseases, the first and most important work is to expel from the blood every trace of poison. This is always successfully accomplished by the use of Paine's Celery Compound.

This marvelous medicine after purifying the foul and stagnant blood, acts as a nerve food. It builds up the nervous system and nourishes all the bodily tissues.

Boys and girls with such a start in life as they always receive from Paine's Celery Compound, grow up as sturdy as forest oaks; they revel in strength and true life; they are fair to behold; they make the men and women most needed by our country. Do your part this month, dear parents, with promptness and honesty, and rest assured Paine's Celery Compound will not fail in its grand work of health building.

First Chambermaid—That man in No. 14 gets an awful lot of letters. If they're from women—

Second Chambermaid—Oh, no, he's a perfect gentleman. Those letters are all unpaid bills.—New York Times

College Quartet.

The Otterbein Male Quartet composed of L. M. Barnes, R. V. Hildebrand, E. M. Marsh, and H. U. Engle, is scheduled to appear in a program at the United Brethren church on East Main street on May 24. The admission will be 15 and 25 cents. These young men never fail to please their audiences, and they will doubtless make a good impression in Newark.

The Religious Telescope of Dayton, Ohio, says of them:

"The Otterbein Male Quartet sang at the baccalaureate exercises in the Victoria Theatre, Sunday, to 1500 people. Their singing was about the best we have ever heard. No college quartet in this land could excel it."

E. H. Grove

JOHN SWAN

WAS NOT KILLED IN ACCIDENT NEAR PITTSBURG.

He Telegraphs His Wife, Fortunately, Before She Heard the Report From Pittsburgh.

The report that Mr. John Swan, formerly of this city, was among the killed in the terrible explosion of naphtha and oil tanks on Pan Handle cars, at Sheraden, happily proves to be unfounded.

As soon as the report was received here that Mr. Swan was among the killed, an Advocate reporter repaired to the home of Mrs. Swan, on South Fourth street, two doors south of Harrison street, and upon making known his errand to Mrs. Swan, was informed that she had just received a telegram from her husband that he was "all O. K." and for her not to worry. Mr. Swan was formerly employed by the B. & O. railroad company as a brakeman and later was in the employ of the Jewett Car Works, this city. On the 24th of last October he left for Sheraden, Pa., where he has since been employed in the Pan Handle yards as a switchman.

Mrs. Swan had received no particulars of the accident and did not know of the reported death of her husband until she received the telegram from her husband. Some of the neighbors, however, had heard of his death, but refrained from informing her until further particulars could be learned.

In some of the lists of the dead the name of John Swan appeared, one of the unknown dead evidently having been erroneously identified as Mr. Swan. When Mr. Swan learned of the report he promptly wired his wife that he was "all right." The details of the horrible accident which resulted in 13 deaths and injury to probably 300 people, are given on page one of this paper.

CUTTING RATES

GAS WAR ABOUT TO BEGIN AT GRANVILLE.

The Agent of the Old Company is Authorized to Publish a New Price List.

Granville, O., May 13.—Harry Miller, the local manager for the Crawford Natural Gas company, (the old company) is in receipt of a letter today from the company's headquarters authorizing him to publish a new price list in order to meet the competition of the new Licking County Gas company which recently started here.

The new company which is now supplying from 50 to 75 consumers, has contracts with over 200 Granvillians and these people have signed contracts for three years. The new company's rate is 20 cents per thousand feet and the flat rate for cook stoves is \$1.

In talking to the Advocate correspondent this afternoon, Manager Miller said that the meter price his company would make would probably be 10 cents a thousand and that the cook stove rate would be either 75 cents or \$1 a month.

The new company is now busy laying street pipes and making house connections. Word came from Homer this morning that another big well had been drilled in on the Pierson farm last night.

The gas war is on here in Granville and the people bid fair to get fuel and light at remarkably low prices.

BOTH RECOVERING.

Conductor R. G. Coats who was so badly injured in the wreck of April 18, when Engineer Osburn was killed, was able to be out for the first time Monday. His broken arm, five fractured ribs on the left side, and sprained left leg, besides other more or less serious bruises, are all healing rapidly. L. H. Jones, Coates' brakeman, has reported for work.

ROYAL GUEST

PROVED THIS UNASSUMING MAN
TO BE

Chamberlain to Emperor of the Austrias Finally Discovered by Baltimore's "400."

Baltimore, May 13.—Baltimore's snootiest society has a new lion. He is Prince Sapiela, Chamberlain to the Emperor of Austria. The royal visitor has been here one week. His coming was of such an unpretentious nature and his demeanor has been so quiet and unassuming that it took the "400" several days to "wake up" to his presence. In fact, the employees of the fashionable hostelry at which the royal personage has a small room on the top floor, just one stair removed from the roof, did not realize what a distinguished guest was in their midst for several days. When the Prince put up at the hotel he did not give his title. Neither did he proclaim that he was Chamberlain to His Majesty, the Emperor of Austria.

This is all that he wrote on the register: "J. Sapiela, New York." His Royal Highness came here from New York, and perhaps for fear that some rich American might mob him were his title known he registered as any ordinary citizen. Perhaps he also had these thoughts in mind when he asked for a small room on the top floor. He differed in this respect from Baron Rudolph Lehmann the nobleman from Holland, who came to Baltimore last year, it is rumored, to lay siege to the heart and hand of Miss May Brown, daughter of the former Governor.

The Baron had the handsomest suite of rooms in the hotel, and brought two servants and a dozen trunks. This Prince in question came unattended, and a couple of pieces of baggage are sufficient for his personal effects. The Baron dressed three times a day. The Prince has a penchant for one suit—a black frock. Lehmann always paid his visits and did his shopping in a hansom. Sapiela has a preference for walking.

In one direction, however, the tastes of the two noblemen appear identical. Miss Brown is accredited by the gossips with having inspired more admiration in the breast of the Austrian than has any other woman. When the Prince came here he brought letters of introduction from mutual friends to several prominent families.

The only Baltimoreans he knew before coming to this city were ex-Governor Brown and his daughter. He met them in New York, where he spent April. One of the Baltimoreans to whom the Prince brought letters of introduction said that the nobleman had come to America on the same ship which had brought Prince Henry of Prussia, and that he had been touring this country ever since. His father is wealthy, and the son spends ordinarily six months in Paris, and the other half of the year in Vienna. Baltimore society thinks well of the Prince and is paying him all homage. He has been dined and wined, and has been taken to the Baltimore Country Club, which he says he likes very much. Among those who have entertained him are Dr. and Mrs. George Reuling, Mr. and Mrs. W. Julian de Buleit, Mr. Walter de Curzon Poultny and Dr. and Mrs. Clapham Pennington.

Killed By Tree.

Washington, Ind., May 13.—While Louis Smead, 25, was plowing this morning a burning tree fell toward him. He had the lines wrapped about his wrist and on this account could not get out of the way. The tree struck him, breaking his back in two places and causing his death. A six year old son was walking behind his father and upon recovering from his fright ran home and notified his mother.

Cherry Valley School.

The Cherry Valley school, John H. Reid teacher, closed its session Monday morning. Many visitors were present and enjoyed the program, consisting of music by the Gamble brothers of East Newark, recitations and songs by the school, and a dinner at the school house lawn. Mr. Reid will teach the Goose Hollow school next term.

The Persians have and ordinance factory at Teheran under the charge of German officers which turns out excellent work. German machinery is used. From 200,000 to 500,000 Mauser cartridges can be produced daily. Factories are also to be established shortly for the manufacture of side arms.

ANOTHER GUSHER.

Big Strike of Gas Near Homer, on the Pierson Farm.

Good Price Paid for Leases on Six School House Yards—Not a Dry Hole Has Yet Been Struck—To Pipe the Gas to Columbus, Ohio, This Summer.

Homer, O., May 13.—Another gusher has just been drilled in the new Licking county gas field which is now rivaling the once famous "Sugar Grove" field in southern Ohio. Already there are more than twenty producing wells in this territory about Homer and Highwater and not a single dry hole has been found.

Every well has been a producer, but to what extent is closely guarded by the owners. A man who knows how to read a gas well's indications who visited the new well which has just come in on the Pierson farm a mile and a quarter southwest of Homer this morning reports it to be at least a 6,000,000 foot well. One that came in east of the village last week is said to be a 5,000,000 foot producer. The Pierson well came in at a depth of 2150 feet.

Six wells are now being put down and arrangements are being made to drill still others.

Nearly all the territory in two townships has been leased and to give an idea of the prices that are being paid for land, this instance may be cited: Last week the Mt. Vernon company

leased six school yards in Burlington township, agreeing to pay \$1200 a year for them and agreeing also to provide each school with free gas for heat and light and to build a house over each well for protection.

The new well on the Pierson farm which has just come in belongs to the Columbus company which is represented in the gas field by Superintendent Rowley. This company already has eight wells in this territory and has ten inch pipe ordered to convey gas to Columbus this summer. Licking county gas already is supplied to consumers at Granville, Ohio, and has been piped to Newark, where it is being used to operate the big glass factory owned by the Edward H. Everett company, Mr. Everett having his own wells near Highwater.

The new company formed at Utica not long ago is making good progress with its well near Utica and has some hopes of the result. The fact that not a single dry hole has yet been struck leads to the belief that Licking county has a gas field which will afford a fuel supply for years to come.

Odd Fellows Program.

(Columbus Press)

Secretary Lyman of the Grand Lodge of Odd Fellows has received a proof of the program of the exercises of a public nature which will be held at Marion on the meeting of the Grand Lodge, May 20.

There will be a parade Tuesday and a large attendance is expected. The welcome to the city will be extended by the mayor; the welcome on behalf of the Odd Fellows by Judge B. Y. Young, and on behalf of the Rebekahs by Mrs. Mildred Hunter. The response will be by Grand Master Lowery. Headquarters will be at the Hotel Marion. Tuesday evening a meeting of the Past Officers' Association will be held. Invitations have been received to visit the manufacturing plants of the city. Cincinnati, O., has a new baseball grandstand of steel and concrete which is probably the finest in the country. It is called the "Palace of the Fans."

JUDGE CLANCY

Of Hornellsville, N. Y., Hands Down An Important Decision.

In the case of Dr. David Kennedy's Favorite Remedy against Blood and Liver trouble, Judge James H. Clancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worth the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Titt of 873 River street, Troy, N. Y., suffered from liver trouble, Dr. David Kennedy's Favorite Remedy is the best remedy you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy. It has cured in many cases where all else has failed.

It matters not how sick you are, how long you have suffered, or how many physicians have failed to help you, Dr. David Kennedy's Favorite Remedy will cure you if a cure is possible.

All druggists sell Dr. David Kennedy's Favorite Remedy, in the New 50 cent size and in regular \$1.00 size bottles.

Sample bottle—enough for trial free by mail.

Dr. David Kennedy Corporation, Roundout, N. Y.

REDUCED FARES

Chance for Trips via Pennsylvania Lines at Small Cost.

In addition to local excursions and reduced fares authorized for various events, the following opportunities are offered for trips via Pennsylvania Lines at special rates:

To St. Paul and Minneapolis, Minn., May 17th to 19th, inclusive, account National Baptist Anniversaries.

To San Francisco, Los Angeles, Cal., Portland, Ore., May 26th to June 7th, inclusive, account Imperial Council, Nobles of Mystic Shrine, National Convention, T. P. A. of America, and Supreme Lodge, A. O. U. W.

To Denver, Colorado Springs or Pueblo, Colo., June 21st to 23d, inclusive, account Sunday School International Association, Triennial Convention.

To Minneapolis, Minn., July 5th to 7th, inclusive, account National Educational Association.

To Tacoma, Wash., or Portland Ore., July 15th to 20th, inclusive, account Annual Meeting Y. P. C. U., Society of United Presbyterian Church.

To San Francisco, or Los Angeles Cal., August 1st to 7th, inclusive, account Biennial Meeting, Knights of Pythias.

To Salt Lake City, Utah, Aug. 6th to 8th, inclusive, account Annual Reunion, Grand Lodge B. P. O. E.

For information about fares and other details, apply to Ticket Agents of Pennsylvania Lines.

SO GREAT

Was Disaster on Martinique That Other Catastrophes Have Been Almost Overlooked.

The horror of the situation in and about St. Pierre, the coast town on the island of Martinique, D. W. L., grows at the details of the Mt. Pelee eruptions and consequent loss of life become known.

So great was the disaster on the island of Martinique, where fully 40,000 lives were blotted out, that other catastrophes that ordinarily would shock the world have been overlooked. The facts are just coming to the surface regarding the earthquakes in Guatemala, which destroyed eight towns, thousands of lives being lost in one place.

Volcanoes in all the islands skirting the Caribbean Sea are showing activity. Five hundred bodies lie unburied on St. Vincent Island, where the monster crater of Soufriere is pouring forth an avalanche of molten matter upon the country.

The chain of volcanic disturbances extends to Nicaragua and thence northward to an extinct crater in Nebraska already showing activity. It is asserted by scientists that the Western part of the mountains in the United States are likely to imitate those of the West Indies.

It has been decided to send all Boer prisoners who are sentenced to terms of penal servitude out of South Africa to the Seychelles Islands. A new convict prison is to be constructed there for the purpose. Accommodation for 1,200 prisoners of war will be ready in Antigua by the middle of April.

CHANGE OF MARKET.

Gone By.

All use for the vile smelling and stomach upsetting Cod-Liver Oil—Vinol takes its place and because it does not disagree with the most delicate stomach, it is a greater tonic reconstructor than the old form of cod-liver oil ever was.

Mr. Geo. Heisa Wishes to Testify for Vinol.

"I wish to testify to the merits of Vinol and take this method of telling my fellow-men who are afflicted that Vinol is the grandest medicine I ever heard of and that it does all that is claimed for it. I was all run down, tried different physicians and took all the nauseating preparations I ever heard of—Emulsions of Cod-Liver Oil included—but all to no avail; they only made me worse, finally I heard of the great curative powers of Vinol and concluded to try a bottle of it. I gained in weight continually from the time I commenced to take it and now I can truthfully say I am perfectly well and have regained my former strength and weight completely. Furthermore I wish to say that this testimonial was given without solicitation, but I believe in giving credit where credit is due."—GEO. HEISA, Comet, Ohio.

When we talk of Vinol we know of what we speak and will refund your money if you are not satisfied.

Died Monday Evening at His Home on East Main Street—Funeral to be held Wednesday.

John W. McConnell, a well known and highly respected young man of this city, died at his home, 323 1/2 East Main street, on Monday evening, at 7:30 o'clock, after an illness of twenty-two weeks with a complication of diseases that baffled the skill of the best physicians.

The deceased was born and raised in Newark, and was a son of Mr. Hugh McConnell. He was a young man possessed of many excellent traits of character and his demise will be sincerely mourned by a large number of friends and relatives. Besides his father he leaves a wife and two sisters, Misses Maude and Grace McConnell. The funeral will take place from the home of his grandfather, Mr. John McConnell, 345 East Main street, Wednesday afternoon at 2 o'clock, and the services will be conducted by the Rev. H. Newton Miller pastor of the Church of Christ, of this city, and the interment will be made in Cedar Hill cemetery.

War May Continue.

Bradford, England, May 13.—The Observer's London correspondent says he has trustworthy news from Holland to the effect that the South African peace negotiations have broken down completely. The burghers, he says, have resolved to continue the war, as amnesty for the Cape rebels is not forthcoming.

"Too severe education" is gravely reported as having caused 2 per cent of the bad boys in Tokyo reformatory to be sent there.

Decision

of the

COURT of COMMON PLEAS.

Lucas County, OHIO,

rendered Nov. 14, 1901, which is now the law of Ohio:

"I am clearly of the opinion that Ariosa is within the proviso of the statute, and that it is not unlawful to manufacture and sell it."

GUARANTEE

of

Arbuckle Brothers

"We guarantee our 'Ariosa' and 'Rio' brands of Coffee to be a pure food, sound and healthful in every respect, prepared and marketed in strict conformity to the laws of Ohio; facts which we will maintain, at our expense, in any suit which the Commissioner may bring against us or any merchant selling the brands in question. All we require is prompt notice that prosecution has been instituted. We will do the rest."

WITH EGGS

Twenty People Awaited the Appearance of Miss Taylor, Matron of Girls' Industrial Home.

A special telegram to the Advocate from Delaware, O., this afternoon says:

"It is today learned that twenty people with a supply of eggs assembled about the store near the Girls' Industrial Home last night, where Miss Taylor had gone to do some trading. Miss Taylor is matron of the cottage where Norah Ferris the inmate, died in a straight jacket, and whose death is now being officially investigated. A lady clerk in the store assisted Miss Taylor to a place of safety and the crowd had no opportunity to use her as a mark for the eggs.

Schley Controversy.

Washington, May 13.—"Never while I am President of the United States shall MacLay's history be used at the naval academy as a text book." President Roosevelt with these words brought to a close a conference yesterday with Representative Mudd of Maryland, leader of the Schley faction in the House. In the course of the conference Mr. Mudd told the President that the naval appropriation bill would soon be before the House for discussion and that then he would take issue with the President's opinion that the Schley controversy should be forever buried.

New York Fire.

New York, May 13.—Several firemen were this morning overcome by smoke in a fire which among other buildings on Thomas street, destroyed Herman Baker & Company's ammunition and supply house. No one was fatally hurt. Loss \$100,000.

A PROMINENT MASON.

A DAY'S NEWS IN THE COURTS

NEW MEN NAMED ON THE PETIT JURY THURSDAY.

Business of the Day in Common Pleas Court—First Assessor to Report. Realty Transfers.

The following named jurors have been drawn to serve on the petit jury by order of Judge Seward, to fill the unexpired terms of those who were excused by the Judge:

Milton Kelsey, Union township.
S. O. Bentley, Eighth ward.
William M. Wilson, Fifth ward.
Lyman Wright, St. Albans township.
Isaiah Jones, Harrison township.
E. C. Legge, Second ward.

In Common Pleas Court

The case of the State of Ohio ex rel., Nancy Hafer, vs. Harry Butt is on trial to the Court today. The action is a proceeding in habeas corpus brought by Mrs. Hafer to obtain the possession of Mrs. Hafer's minor son. The child, some time ago, had been sent to the Children's Home, and by the Home placed by an indenture of apprenticeship in the hands of Harry Butt. B. G. Smythe for relator; Flory & Flory for respondent.

George H. Kureth vs. Charles Kureth, et al.; Phil B. Smythe appointed guardian ad litem. Bolton.
Edward B. Moore vs. T. O. Donovan, leave given defendant to plead instant. Randolph; Bolton.

Hamlin D. Burch, exr., etc., vs. David Laughery, an action brought to construe a will. Phil B. Smythe appointed guardian ad litem as to the Wilson heirs; Edward Kibler appointed guardian ad litem for Laughery heirs. There are 55 defendants in the case. Norpell; Smythe & Smythe, Kibler & Kibler.

E. M. Burt vs. B. & O. R. R. Co., et al., judgment of dismissal at costs of plaintiff without prejudice. The action was brought to enjoin the placing of tracks on Walnut street, this city, in front of Burt's property. Smythe & Smythe; Kibler & Kibler.

Transcript Filed.

A transcript from the criminal docket of J. R. Atherley, Justice of the Peace, in the case of the State of Ohio against Frank W. Wright, charged with non-support of his minor child, was filed with the Clerk of the Court.

First Assessor In.

The first assessor to make his return to the county auditor was Hiram Full of the North Precinct of Union township. His report shows an increase in taxable property of \$9000.

Peter McDonald of San Francisco, Cal., is visiting his brother, Tod McDonald in the city for a short time.

Mr. Haldeman Dead.

Louisville, Ky., May 13.—Walter N. Haldeman, owner of the Courier-Journal died this morning from injuries suffered Saturday when he was struck by a street car. He was 31 years old.

RATHBONE'S CASE.

Washington, May 13.—The President has directed a conference with the Cuban court of appeals to review the case of Major Rathbone and get additional testimony. The case will now go from the lower court to the court of appeals for a new trial.

Odds and Ends.

The total capital invested in railways and canals in Canada is \$1,100,000,000.

Crows have no fewer than 27 different cries, each distinctly referable to a different action.

In the poorest quarters and tenements of London there is nearly always a flower pot in the windows.

In the Canaries the banana is never cut with a knife because the fruit after being cut through exhibits what is regarded as a representation of the crucifixion.

The Nile mud, which renders Egypt a habitable country is said to bear a striking resemblance to that which every season is brought down by the Missouri river.

The biggest raft ever sent down the Mississippi is on its way to St. Louis. It contains 11,000,000 feet of logs and requires two powerful steamers to handle it.

The largest mass of pure rock salt in the world lies under the province of Galicia, Hungary. It is known to be 150 miles long, 29 miles broad and 250 feet in thickness.

As a result of the mild winter in Southern Russia snow mice have appeared in great numbers in the fields, doing great damage to the crops.

London is considered a crowded city yet only 9.4 per cent of its inhabitants occupy one room tenements, whereas in Bombay it is 20 per cent.

The voters' lists for Paris as revised show the total number of electors in the capital to be 605,279, as compared with 550,691 last year, an increase of 54,488.

The great bugaboo of the London Central railway seems to be fire. All the new trains are of fireproof construction, steel and asbestos being largely used.

In one year 25 cubic yards of the granite pavement of London bridge is reduced to powder by the enormous traffic, 20,000 vehicles crossing daily and 200,000 foot passengers.

Three ancient Roman weights were recently found at Rome. They were of green marble with bronze handles, and prove that the Roman pound was equal to three-quarters of a pound avoirdupois.

Salmon frozen in Oregon and shipped to the cities of Germany can be bought there for 35 cents a pound, while German salmon cost \$1.25 per pound.

Dr. Hayes measured an iceberg in Melville bay which was nearly a mile long and 315 feet above water. It was estimated to weigh 2,000,000,000 tons.

The world's steel output for a year would make a column 100 feet through and a mile and a third high or build a steel wall 5 feet thick, 20 high and 100 miles long.

BURGLARS VANISHED.

About 12 o'clock on Saturday night Mr. John Franklin, who resides on Church street with his mother, was awakened by a noise as of some one trying to enter the house, and on investigation an eighteen foot ladder was found leaning against the building. The burglars, however, had vanished. The matter was placed in the hands of the police.

Brazel, Ind., May 13.—Last night Richard Curry of Knightville was discovered midway between this city and his home in an unconscious condition. His throat had been cut from ear to ear. It is supposed that he was waylaid and robbed and then assaulted. But little hope of his recovery is entertained. There is no clue to his assailants.

DR. W. H. DOANE

WHO IS A SUBSTANTIAL FRIEND OF GRANVILLE COLLEGE

Speaks Before a Columbus Audience on Church Music—Dr. Doane a Famous Composer.

(Columbus Dispatch.)

The song service at the First Baptist church Sunday evening, was the most interesting of the series, made so by the presence of Dr. W. H. Doane, of Cincinnati, the composer of the music for more than 1,000 gospel hymns, some of which will be sung as long as the Christian religion endures.

Dr. Doane is a man of perhaps 70 years, with a white beard and hair, and of medium height and weight. Most of the music of the evening was written by him and his short discourse on church music took the place of the usual sermon. Dr. Doane explained that the musical faculty developed in him at a very early age and he learned to play instrument after instrument as he could get them in his humble home, doing this against the desire of his elder brother, who thought the drunken bandmaster of the village was the standard of all musicians. Finally he composed a piece of music and sent it to Professor Johnson, then a famous composer in Boston. The latter returned it with four pages of criticism and for his pains was dubbed by the boy an ignoramus. Another piece was composed and sent to Professor Johnson. That was returned with six pages of criticism which convinced the youth that he and not the professor was the ignoramus and set him at hard study of musical composition.

Dr. Doane's description of his meeting with Fanny J. Crosby, the blind poetess whose productions early attracted his attention, was most interesting. He knew only that she was in New York city, and one time when he was there he began a search for her. No publisher knew her whereabouts, although poems from her pen were occasionally appearing. He followed clue after clue and finally about 10 o'clock one night found her in the upper story of a tumble down house in an out of the way corner of the city. She was, Dr. Doane then for the first time learned, blind, and she was in financial trouble. The meeting was most fortunate for both, for it provided her with a market for her verse, and him with an inspiration for his music. It was about this time that the words of "Rescue the Perishing," written by Mrs. Crosby, came into Dr. Doane's hands most mysteriously and enabled him when the words of the numerous divines had failed him, to fill an engagement with the famous Dr. Van Meter, then and for long years engaged in rescue mission work.

Dr. Doane talked for a half hour after the usual time but nobody seemed to be weary, and when the congregation was dismissed an after meeting was held for which a large number remained to sing other of the Doctor's gospel songs.

Dr. Doane is a successful business man. Music has been his diversion and he has never written for money.

Dr. Doane is the Cincinnati man who has done so much for Licking county's college at Granville. The Doctor has given freely of his time and money for the advancement of the interests of the Granville schools. Doane Academy, the preparatory department of the college, takes its name from this one of its liberal benefactors.

The government of the Malay Peninsula is planting gutta-percha trees on a large scale, and it will not be necessary to cut them down, as gutta-percha can now be extracted from the leaves and twigs without injury to the trees.

MRS. MAXWELL'S FUNERAL.

The funeral of Mrs. Maxwell, an account of whose death was given in last night's Advocate, will take place on Thursday at the family residence, No. 126 Oakwood avenue. Services at 11 o'clock conducted by the pastor of the deceased, Rev. Mr. Wilson of the Baptist church, Dresden, Ohio. Interment in Dresden cemetery.

This medicine will purify the blood, restore the appetite, make the liver active and relieve all the troubles of the system. It is a powerful blood purifier, and will cure all the troubles of the system. It is a powerful blood purifier, and will cure all the troubles of the system. It is a powerful blood purifier, and will cure all the troubles of the system.

PITTSBURG DISASTER

(Continued from page 1.)

The Seymour Hotel and the Collins House in Esplan were literally blown to atoms, and a frame building adjoining the Collins was the poolroom alluded to in the foregoing.

The killed and injured were brought to the city in trolley cars and farm wagons. The injured were distributed among the hospitals. The injured in most cases had every stitch of clothing burned away, and were swathed in what came to hand. Some of the dead were almost unrecognizable. It is impossible to recognize many of the dead. The property loss will amount to at least \$600,000.

The Dead:

The following is the corrected list of dead so far obtainable:

Albert McKean, brakeman, Sheridan.
H. F. Smithley, Uhrichsville.
Unknown boy about 14 years old.
Finerty, aged 40, Sistersville, W. Va.
Charles Hertig, Chestnut Mines.
W. E. Resi, Dorenceton, Luzerne Co.
Tony Lee, laborer, aged 30, Esplan.
Lawrence Keenan, yard master's clerk, Carnegie.
W. W. Taylor, 2 years old, of Miller's station.
G. E. Hunter, 28 years old, leaves a widow and five children of Sheraden.
Dallas Bort, 28 years old, a carpenter of Sheraden.
Unknown white man about 40 years of age.
Douds.
David Smith, aged 9, of Sheraden.
James Keenan, aged 20, Carnegie.
Pascoe Mader.
Italian section hand, aged about 38.
Unknown boy, aged 10.

The Injured.

Among the more seriously burned are Albert Haertig, aged 12, burned all over body.
Carl Eating of Tipton, Tenn., badly burned about head.
Henry Desnise, Allegheny, burned head, hands and feet.
Sadie Seymour, deaf mute, 23, burned and injured in panic.
Fick Connolly, 43, grocer, Cecil, Pa., badly burned all over.

Clyde Grinnage, 24, face, neck, legs and hands burned.
Roy Githredge, 9, burned hands and face.
Clyde Fair, 22, MacDonald seriously burned head and face.
Charles Keenan, 14, burned all over body.
Charles Keenan, 14, burned all over body.
W. C. Hancock, Pittsburgh, fractured skull, will die.

Frank Doerfer, burned all over body.
William Henderson, 22, Elliott borough, burned about face and hands.
Hugh Henderson, 25, hands and face burned.
J. E. Hannam, Bridgeville, burned all over body, seriously injured.
J. J. Wallace, Travescan, burned on face and body, serious.

James Callahan, Elliott borough, leg broken, burned about hands and face.
Albert Verry, 12, Sheraden, burned about body, inhaled flames, will die.
Mrs. Julia Ansell, 38, Sheraden, burned badly about neck and head.
Frank Culture, 30, Carnegie, badly burned.

Matthew Moreland, 25, McKees Rocks, badly burned, probably die.

FIRE STILL BURNS TODAY.

Pittsburg, Pa., May 13.—At 10:30 this morning the Homeopathic Hospital reported six victims of the Sheridan disaster there would die.

The officials of the Pan Handle road fear a worse explosion than the three which wrought so much damage last night. A danger line has been established five hundred yards on all sides of the burning wreckage and the railroad police are keeping the crowd back. A few feet below the burning wreckage the big 36 inch main of the Philadelphia company, which comes from the gas fields in the southwest corner of the state, and which supplies McKees Rocks and lower Allegheny districts with natural gas, lies. The 300 workmen engaged in clearing up the debris and extinguishing the flames, are unconscious of the fact that they are working over this main. The railroad officials are keeping this fact from the workmen fearing that if they were aware of their great danger all would quit work.

The concussion was so great last night that it is feared that some of the joints or even the pipe itself might have been damaged. If such is true the gas, which is under great pressure will soon force its way through to the surface and if it does there will be a terrific explosion with results that can

CURES RHEUMATISM.

Stops the Pain and Reduces Swelling Almost Instantly.

Blood Wine Goes About It In A Different Way—Begins at the Bottom—Removes the Cause.

"Blood Wine" cures Rheumatism and cures it quickly, thoroughly and permanently. It cures neuralgia, and all forms of aches and pains. It is not Rheumatism caused by uric acid in the blood? This everybody knows. To treat it you must have something to work directly on the blood, to filter it, cleanse and purify it, drive the uric acid out of it and make it so healthy that it or any other foreign matter will not return again. "Blood Wine" is a powerful blood remedy, hence an effective rheumatic cure. It contains no wine or opiates, but medicine of most extraordinary value. For Rheumatism "Blood Wine" never fails. Mrs. T. Foster of Salem St., Providence, R. I., was saved from a life of suffering, and given back her health by using "Blood Wine." She says: "I have used six bottles of 'Blood Wine' for rheumatism and backache, and feel it my duty to let you know what your medicine has done for me. I am completely cured and owe my recovery wholly to your 'Blood Wine.'"

Mrs. Addie Fletcher.

Mrs. Addie Fletcher of 22 Isabella St., Boston, Mass., has experienced a very wonderful cure of rheumatism of long standing. These are her words: "I think I ought to write you in regard to my experience with your valuable remedy. I have had rheumatism in my ankle so badly that I have been unable to walk for days at a time, and I was almost discouraged when 'Blood Wine' was recommended to me. I thought I would try one more medicine, and was delighted to find that I gained rapidly while taking one bottle, and now I find myself almost cured after taking four bottles. 'Blood Wine' is invaluable in my household and I heartily recommend it to all." "Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at CITY DRUG STORE.

only be surmised. About 20 cars are piled up between the Sheridan station and Corbis Run in the Sheridan yards. This is still a mass of flames. It covers an area of 40 by 150 feet. In this there are all kinds of merchandise. The volunteer fire department of Sheridan and No 10 engine company from the West End, Pittsburg, are throwing water on the debris today, but little headway is being made in quenching the flames.

A late revision of the list of the dead today, adds the following names: Antonio Leo, W. W. Lewis, unknown white man and Hugh Flaherty.

An unconfirmed report is current at Sheridan today that three bodies were found this morning on the hill opposite the scene of the explosion. The morgue officials have no knowledge of the find.

NEW BANK

To Be Started at Chicago Under the Management of Mr. Charles G. Dawes.

The following press telegram to the Advocate from Chicago will be of local interest:

Chicago, May 13.—A bank with a capital stock of \$4,000,000 and a surplus of \$1,000,000 is soon to start under the management of Charles G. Dawes, former controller of the currency, who recently retired from the race for U. S. Senator. The Central Trust Company of Illinois is the name adopted. It will be the third large bank organization in Chicago in the last three months.

What is said to be the largest steel safe in the world is nearing completion for a life insurance company in Hartford. It is to cost \$185,000. It weighs 42,000 pounds.

A comparison has been drawn in Norway as to the profit of the fisheries in the sea and in the rivers, which shows that the former are three times as remunerative as the latter.

The cows in Belgium wear earrings. The law decrees that every cow, when it has attained the age of three months must have in its ear a ring to which is attached a numbered metal tag.

The gray buzzard is said to be the heaviest bird that flies, the young males, when food is plentiful, weighing nearly 40 pounds. The bird is almost extinct.

One hundred miles shortest to Chattanooga, Queen & Crescent Route. 12
